

6/2/99

Dr. Jane Henney,
2905 '99 JUN 14 P1.53

I am very concerned about antibiotic resistance in our population. I believe it is very bad to pump antibiotics and hormones into our hogs & poultry & cattle.

I look to you and your agency to try to rise above the monied shrieks of agri-business and consider the greater good of the people -

Reduce the use of antibiotics in animals, especially the use of the few antibiotics left which still work!! C890
